

VÖLKEL

THREADING SOLUTIONS

Hello,

we hope you had a good start to the new year. At VÖLKEL, 2026 is already well underway. Our motorsport team is currently competing in the **Rally Dakar** in Saudi Arabia and giving it everything. At the same time, we are presenting the **VÖLKEL Combined-Bit** as a smart solution for mobile applications and already looking ahead to the **International Hardware Fair** in Cologne at the beginning of March, for which preparations are in full swing.

Dakar 2026 – Team VÖLKEL at full throttle

The Rally Dakar 2026 is in full swing and Team VÖLKEL is right in the middle of it. All six vehicles are still in the race. At one of the toughest rallies in the world, this is anything but a given.

Extreme temperatures, long stages and constant material stress are part of everyday life. It is under these conditions that the true performance of people

and technology becomes clear. Our team is giving its all every day, and we keep you up to date on our channels and on our exclusive Dakar landing page.

VÖLKEL Combined-Bit – three operations, one tool

Drilling the core hole, tapping and deburring in a single operation. The VÖLKEL Combi-Bit is designed for mobile use and for situations where speed, cleanliness and reliability matter.

Fewer tool changes, shorter machining times and a clean thread entry make it an efficient solution, especially for mobile applications.

VÖLKEL at the International Hardware Fair 2026

INTERNATIONALE EISENWARENMESSE KÖLN

From March 3 to 6, 2026, we will be exhibiting at the International Hardware Fair in Cologne. We look forward to personal meetings, direct exchange and presenting our new products live.

You will find us in Hall 10.1, Booth E002 / F003. Preparations are in full swing and we look forward to sharing more insights and details with you in the coming weeks.

On our social media channels, we regularly share further updates and highlights from the world of VÖLKEL:

See you next time
Your VÖLKEL Team
