

VÖLKEL

THREADING SOLUTIONS ■ ■ ■

Hello,

The days in Remscheid are getting shorter, but at VÖLKEL things are still running at full speed. New projects, technological developments and inspiring partnerships prove that standing still is never an option for us. What drives us is always the same: a passion for precision, enthusiasm for technology and the courage to explore new paths.

Whether in the scorching **desert of Saudi Arabia**, in the production of **high-precision threading tools**, or in the high-tech environment of a **student space project** – VÖLKEL is everywhere with know-how, quality and dedication. In this issue, we show you what we're currently working on and what's coming up in the next few weeks.

Team VÖLKEL at the Rally Dakar 2026

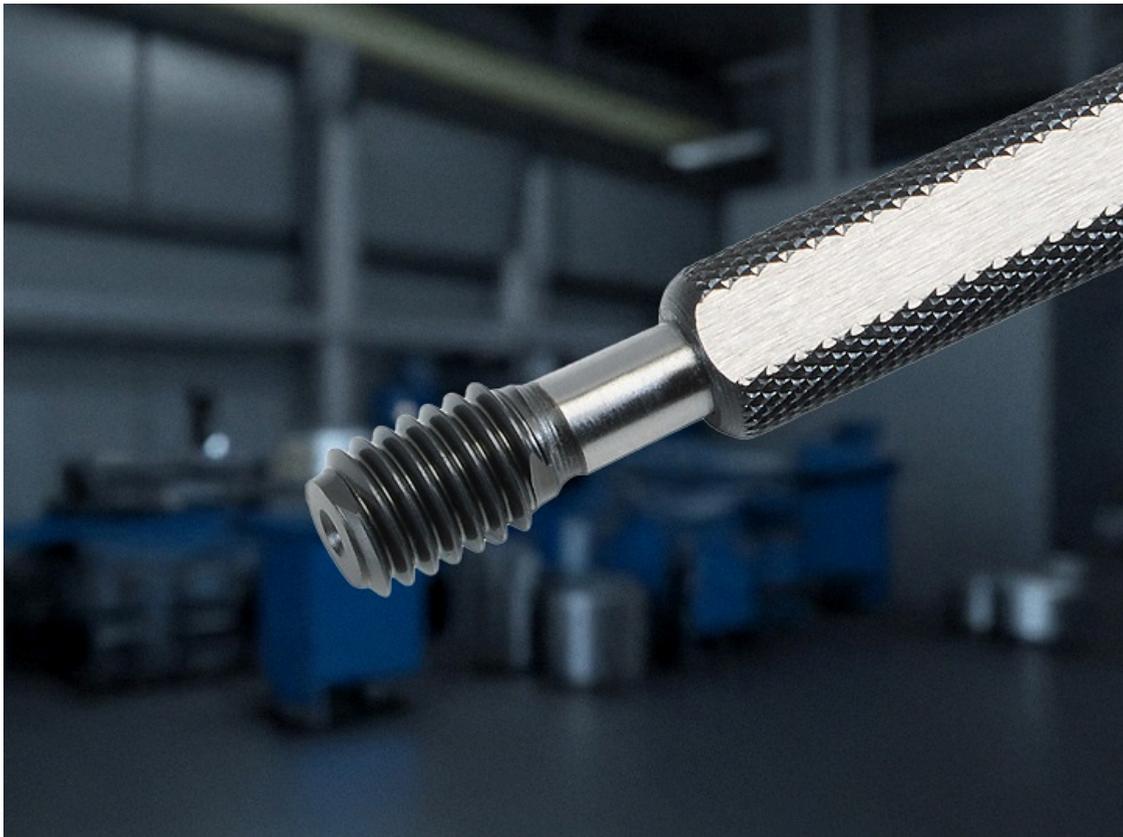

It's official: We're heading back to the Rally Dakar Classic! In January 2026, Team VÖLKEL will once again be at the start – this time with two G-Class

vehicles ready to take on the sands of Saudi Arabia. What an adventure! Preparations are already in full swing, and over the next few weeks, we'll see how a top rally team comes together step by step – with passion, experience and strong teamwork.

On our Dakar landing page, you can follow the entire journey: get the latest updates, exclusive behind-the-scenes insights and plenty of exciting content from the team.

Why are Thread Plug Gauges available with DLC Coating?

Our thread plug gauges stand for maximum precision – and with DLC coating (Diamond-Like Carbon) they reach a new level of hardness and durability. But what exactly is behind this technology, and where does it really make a difference?

In our blog article, we explain the advantages and show why VÖLKEL is setting new quality standards with cutting-edge coating technology.

HyEnD Student Team uses V-COIL Inserts for their Rocket

The HyEnD student aerospace team from the University of Stuttgart has set itself an ambitious goal: to build the most powerful student rocket in Europe. For critical threaded joints, the students rely on V-COIL thread inserts from VÖLKEL – to ensure maximum stability and strength.

We're proud to support young engineers on their path into space – with expertise, quality and genuine passion for technology.
