

BLACK RING Machine Taps - Now available up to M42!

We are pleased to present a new highlight from our product range: the **BLACK RING Machine Tap** - now available in sizes **up to M42!**

What makes the **BLACK RING** special?

- **Material:** Manufactured from high-quality **HSS-E** (high-speed steel with cobalt), the **BLACK RING** offers optimum hardness and heat resistance.
- **Versatile application:** Thanks to the **form C**, this tap is perfect for both through holes and blind holes.
- **Nitrided surface:** The extra treated surface ensures improved durability and reduced resistance to friction.

What materials is it suitable for?

The **BLACK RING Machine Tap** is the first choice for machining:

- Gray cast iron
- Thermosetting
- Fibre-reinforced plastics
- Magnesium alloys

With its outstanding performance and durability, the **BLACK RING Machine Tap** is the ideal solution for demanding thread cutting work.

HSS-E & Form C

The VÖLKE [BLACK RING Machine Tap](#) is available from stock from M3 to M42.

Contact us today to find out more about our BLACK RING machine taps or other products from our range. Our dedicated team will be happy to answer your questions and help you find the right solution for your thread.
